Hermitage is home to world's largest manufacturer of car carriers ♦ ♦ ♦ ♦

Contributed by Dick Davis

Miller Industries is the world's largest manufacturer of car carriers from its Hermitage manufacturing facility. But you might not know it from walking through its recently expanded, high-tech plant at 2755 Kirila Boulevard.

Miller's 260 employees construct more than 100 of the specially-fabricated steel platform carriers each week in its 225,000 square-foot plant, including a recent 125,000 sq. ft. addition. While bustling with production activity, the plant is surprisingly clean and not noisy.

Dust collection systems installed by Imperial Systems, of Jackson Center, handle the ever-present shop dust and dirt, while, according to Dale Pittman, general manager, noise levels of the facility are professionally tested to ensure the noise is well below established norms. The plant has a paint shop and is Wi-Fi enabled for the computerized equipment and tracking of all materials.

For its 2016 expansion, the Hermitage plant recently was awarded a Phoenix Award from the Shenango Valley Chamber of Commerce in the Large Growth Manufacturing category. Miller's investment in plant and equipment totaled \$20 million.

"This is the most modern, best equipped facility of its kind," said Pittman as he and Dan Sebastian, a Miller vice president, conducted a tour for city and local officials. "Our employees work hard in every department. We get three deliveries of steel and other raw materials every day—some workers are busy stocking those materials among our 895 in-house storage locations."

Miller's car carriers are flat-bed platforms with hydraulic tilt mechanisms that enable a towing operator to drive or winch a vehicle onto the bed for transport. They can be used to transport new or disabled vehicles and other equipment. Car carriers are also used for other purposes, such as transportation of industrial equipment.

Types of carriers by Miller include conventional, low center of gravity (LCG), conventional industrial, and LCG industrial with sizes for one, two, three or four cars. Most carriers leave unattached to a truck chassis while some are attached in the Miller plant.

Sebastian says Miller's market is the towing and recovery

Miller Industries complex in Hermitage.

industry, auto and truck salvage businesses, and the rental equipment industry. Sunbelt Rentals, which services a variety of customers in the commercial, residential, industrial, municipal, and specialized service industries, is one of Miller's largest customers.

Tennessee-based Miller Industries has four manufacturing facilities in the U.S., one in England, and one in France. The firm's products include wrecker, car carrier, and trailer bodies. Miller brands include Century, Vulcan, Challenger, Holmes, Champion, Chevron, Eagle, Titan, Jige, and Boniface.

Hermitage School District – Program Updates

Kindergarten Registration

If you have not already registered your child for Kindergarten for the upcoming 2017/2018 school year, you may do so at the Hermitage School District Central Administration Office Monday-Friday 7:30 am-3:30 pm. Please visit our website, www.hermitage.k12.pa.us to view the necessary documents for student registration or call our office at 724.981.8750 ext. 6000.

Success by Six 2017

The United Way and Hermitage School District are proud to offer the Success by Six summer

program for incoming Kindergarten students for the 14th straight year! This program provides students the opportunity to familiarize themselves with our staff, building, and daily procedures before the start of the school year at no cost to the families and transportation is provided daily! Each day, students participate in academic and social skill lessons and activities to build a strong foundation prior to the first day of school.

Success by Seven 2017

The United Way is piloting a Success by Seven program in five districts within the county and our district was awarded one of the classrooms. The program provides fifteen incoming first graders the opportunity to come into the school for three weeks this summer to provide additional math and reading instruction as we

prepare our students for their upcoming year in first grade. We feel very fortunate to be able to offer these courses for our students as we continue working with families to prevent the “summer slide.”

1:1 Chromebook Initiative

Hickory High School is proud to announce that they will be launching a 1:1 Chromebook Initiative at the start of classes this fall. Our 1:1 Chromebook Initiative began this past year with a pilot program specific to 8th Grade students and staff. With the overwhelming success and effectiveness of this pilot we are expanding this program to all classrooms in Grades 8-12. Each student will receive a Chromebook to be used in the classroom as well as at home for educational purposes. Teachers will be using computer technology for instruction, assignments, projects, research and assessment. The purpose of this initiative is to use modern technology tools to fully engage students and create a learning environment that fosters critical thinking, collaboration, communication, and creativity.

At the beginning of August we will begin distributing the Chromebook Usage Agreements to students to have signed and returned. Once returned the student will be given their Chromebook to keep for the 2017-2018 school year. We encourage you to refer to our website for more information on the 1:1 Initiative and to look over our Frequently Asked Questions. To get to these pages you can go to the technology page of the Hermitage School District website: <http://www.hermitage.k12.pa.us/index.php/offices/technology>

Hickory High School Silver Cords Program

Focuses on Students' Community Service Experience

This unique volunteer program was designed to instill students with the importance of community service and to encourage students to be accountable for investing in the community and their own education.

Silver Cords Program Goals:

- Enhance self-confidence
- Increase citizenship
- Give students the opportunity to work with people in their community
- Recognize students for their commitment to the community

Students may start earning volunteer hours beginning the summer prior to their freshman year and must acquire at least 150 volunteer hours at a minimum of four (4) eligible community organizations / locations throughout their high school career.

For more information on the program, organizations should contact – Katie Passerotti at katie_passerotti@hermitage.k12.pa.us

Name & Type of Pet(s): _____

Costume Description: _____

Completed forms can be mailed to:

Mary Ellen McKendry
800 N. Hermitage Road
Hermitage, PA 16148

or emailed to: mmckendry@hermitage.net

Pet Safety Rules: Pets must be on a leash, crated, or in an x-pen at all times. PetFest is not responsible for the actions of your pet. Pets must be under control at all times. Pets must be current of vaccinations. Pets must be sociable with other animals, adults, and children, and not be aggressive about food, toys, or owner. Pets must be comfortable in a loud and festive environment. Please be aware of the stress level of your pet at all times. We want this to be a positive experience for everyone. Pets must be at least four (4) months old, since younger animals have weak or no immune systems. Sponsors reserve the right to refuse entrance or ask anyone whose pet is exhibiting aggressive behavior to leave.

I also release any photos which may involve myself.

SIGNATURE REQUIRED: (Parent signature if runner is under 18)

eCenter@LindenPointe News ♦ ♦ ♦ ♦

First VIA Competition Winner Announced

The eCenter@LindenPointe hosted the final round of the [Venture Investment Accelerator] VIA eCenter on Tuesday, June 6th. The winning company KOPO will receive \$25,000 in seed funding as well as be part of an accelerator program at the eCenter for approximately 20 weeks. KOPO is led by Jesse Thornburg, an MIT Grad with experience around the globe as an electrical, hydroelectric and mechanical engineer is focused on improving living conditions and providing reliable water sources in developing countries. Other team members include: Brandon Ortiz, Head of Research and recent CMU Grad, Jon Brooks, Head of Customer Relations, and Jordan Brooks, Engineer. We look forward to working closely with Jesse and his team to help bring safe, potable and easily transportable water to every corner of the world.

Our panel of amazing judges had a tough time selecting the winner, but it was great having such an accomplished group of leaders give their time and advice to our young entrepreneurs. The judges were: Neil Brennan, Tesla; Mike Capsambelis, Project Manager, Google; Michael Kovach, Proprietor, The Walnut Hill Farm; Catherine Mott, Founder & Managing Partner, BlueTree

Allied Angels; Jim Robertson, President, MAR International Consulting Inc.; Brian Slawin, NW Regional Director, Ben Franklin Technology Partners

A total of 26 companies had applied for the first ever competition in Mercer County, an initiative that was geared towards attracting innovative ideas into the region. Ben Franklin Technology Partners sponsored the seed fund, which the winning team will receive as grant money while accelerating their idea at the eCenter@LindenPointe. 14 teams were selected in the second round, out of which 6 made it to the finals. Startups from all over the region, as well as across the border, had applied.

The LindenPointe Entrepreneurship Academy (L.E.A.P) ♦ ♦ ♦ ♦

reinventing the senior year for area high school seniors.

eCenter Meets Tesla

The world's fastest growing electric car company made their way to the eCenter recently to give an awe-inspiring look into the future of the automotive and renewable energy industry to LEAP students and alumni. Representatives from Tesla captivated us young entrepreneurs with a brief presentation about the short history of the company, its products and plans for the foreseeable future. In addition to the presentation, we were able to experience and sit behind the wheel of the Tesla Model S Sedan and the Model X SUV which was an undeniably extraordinary experience. The cars themselves were near, if not completely

silent while stationary and in motion. This was accompanied by an elegant design with every detail meticulously engineered to perfection inside and out. It was undeniable, this is the future and it's here.

Third Class Graduates from the LindenPointe Entrepreneurship Academy

During the demo day and final competition at the Casino at Buhl Park on May 4, 2017, our 7 high school startup businesses presented to the public for the first time. The business included wearable wi-fi, a refrigerator table, a commercial app-controlled patio umbrella, transition contact lenses, jewelry that connects to online forums, attachable fan air freshener, and an aquaponics work desk. Students worked on the business plans and presentations in teams over the course of the school year. After a close competition, Willet, took home the first place prize of \$2,500, creating a portable dual purpose wifi and safety mechanism targeted towards college students. Brella won the second place prize of \$1,200, by developing a system

to control patio umbrellas via application on a commercial scale. Demo Day connected the community business sector with students of the academy through their innovations. We wish all of our 2017 graduates the best of luck in their future endeavors!

Site Visits to CCL Container and Daffin's Candies

The eAcademy students visited CCL Container in Hermitage, which is North America's leading manufacturer of recyclable aluminum packaging for global consumer brands in the personal care, food & beverage, household and industrial market sectors.

Another company visit included Daffin's Candies in Farrell, where students learned the history of the local candy company as well as the manufacturing processes needed for their product line.

Congressman Mike Kelly meets the academy

Contributed by Dick Davis

Not many high school students can say their U.S. Congressman met them and talked to their class. But the senior students enrolled in the Entrepreneurship Academy at the eCenter@LindenPointe, Hermitage, can.

"I am excited for you," said Rep. Kelly (R-3 PA) during his visit in late April. "You are doing something here that you'll never forget. There is no other place in the world we could meet and talk like this. I congratulate you on your participation in this school."

The academy is part of the eCenter where students from eight school districts work to develop business ideas throughout their senior year. Students attend from Hickory, Commodore

Perry, Farrell, Greenville, Grove City, Sharon, Union, and West Middlesex. Afternoon sessions are conducted Monday-Thursday and taught by Lisa Evans, program director of the academy.

A desire to someday start their own business, develop people skills, or help prepare for college were reasons given for attending the academy in response to questions from Rep. Kelly. Students asked Rep. Kelly for his advice on business and succeeding in life.

CONTINUED ON PAGE 8

From the Chief of Police ♦ ♦ ♦ ♦

Eric Jewell, City of Hermitage Chief of Police

K-9 Program Update

We hope to select our dog, probably a Belgian Shepherd or Malinois, sometime in early fall. Officer Frampton is scheduled to start canine handler school with his dog at the beginning of November. We also purchased a Chevy Tahoe vehicle and are in the process of outfitting it for police K-9 service. Thank you

again to all the citizens, businesses, clubs, organizations and friends who donated to support our program.

Crime Prevention Tip

Remember to always lock your cars and trucks to prevent theft from motor vehicles. From time to time petty thieves are out and about at night and sometimes during the day in neighborhoods, apartment building carports, and parking lots, trying door handles to look for targets of opportunity – unlocked vehicle doors. Thieves often steal cups of loose change, wallets, purses, expensive sunglasses, music CDs, cell phones, GPS units, tools, jewelry, spare keys and guns left in unlocked vehicles by owners. Most

thieves prefer unlocked vehicles in lieu of having to pry locks or break windows. However, if something of significant value is observed inside, a thief may take extra time and the extra chance of being seen or heard to break in. If you must keep something of high value in your vehicle, hide it from plain view under the seat, in a locked glove box or in a locked trunk. Again, lock your doors and tailgates for trucks if equipped with a cap or tonneau cover and make sure your windows are up.

Traffic Safety Tip

Despite being state law and the fact seatbelts reduce the severity of injuries, crash data from the PA Department of Transportation says only 84 percent of people wear them. Per Pennsylvania law, the driver and front seat passengers must wear seatbelts. Children up to age four must be in a child passenger restraint system. Children ages four through seven must be in an appropriately fitting child booster seat. Children ages eight through 17 must wear a seatbelt anywhere in the vehicle. You wouldn't think of riding a roller coaster without being strapped in. The laws of physics/motion experienced on a roller coaster can be the same or worse as experienced in a crash. Please wear your seatbelt. Your life may depend on it.

Kelly CONTINUED FROM PAGE 7

"I am limited only by my dreams," he said, encouraging students to think big. "What you learn here you'll never forget. It is important to develop relationships with people who have the same aspirations as you."

Rep. Kelly told the class of his family business, an auto dealership in Butler started in 1953, how he worked there while going to high school in Butler and college at Notre Dame, then eventually purchased the business in the mid 1990s. He has served in the U.S. House of Representatives since 2011. Rep. Kelly told them they must have an overarching desire to stay in business--it's easy to close up and walk away.

"It was very exciting for our high school students to have an opportunity to interact with a government official at this level," said Ketaki Desai, PhD, executive director of the eCenter. "I believe Rep. Kelly's message resonated well with them. It is important for them to know where our

leaders come from, their unique stories of successes and failures. This allows them to relate to such leaders and inspires them to dream big."

Desai also led Rep. Kelly on a tour of the eCenter's business incubator that provides guidance for those wishing to start their own business, formation of an advisory board, mentoring by successful business owners and industry experts, and goal-tracking of their progress.

From the Desk of the Treasurer ♦ ♦ ♦ ♦

Bernadette Harry, Treasurer

I'd like to remind everyone that the **School Real Estate** bills and the **Per Capita** bills will be mailed on August 1, 2017. **It is your responsibility to notify the Tax Office in the event you do not receive them.** School millage remains at 62.046 for 2017.

Per Capita is a head tax, waged on **every** resident **over the age of 18** and this year remains at \$35.00. **All residents are responsible for this tax and are expected to notify the tax office in the event they do not receive one.** Likewise when moving from Hermitage, you are also to notify the tax office to have your name removed from our tax rolls. There are exemptions (based on income from all sources) available to those who qualify. If your income is \$5,000.00 or less annually, you may be exonerated from the entire per capita bill. If your income is between \$5,000.00 and \$10,000.00, you may only be required to pay a portion of that bill. Upon receipt of your Per Capita bill, all proof of income must be brought into our office, and a form filled out and signed by the person to be exempt. This process must be followed each year.

The **Homestead/Farmstead Act** offers 3 payments to satisfy the School tax amount owed. By choosing this option, you lose the 2% discount. Certain rules apply to these payments and they are explained on your tax bill, starting with the August 31st deadline for the first payment. **Please remember that all homestead approved properties must be owner-occupied. This means that the name on the deed must match the name of the person or**

persons who live in that house.

You can only receive the credit on one parcel. The 2017 homestead credit is \$100.95

Anyone who receives the homestead credit and does not qualify, is required to notify their tax collector of the necessary correction.

Also if there is any change to your deed, through selling or simply a name deletion or change, the Homestead will not automatically follow. You will need to re-apply. Forms are available on the County website as well as in our office, for your convenience.

County/City taxes will remain due at the penalty amount as of July 1st.

You still have time for the property tax rebate if you qualify. We have forms in the office, should you need one.

As always, if you have any questions, feel free to call our office at 724-347-4472, and we will be pleased to assist.

Sincerely,
Bernie Harry
Hermitage Treasurer

Water Quality Corner

The City of Hermitage is committed to protecting and improving stream & river quality in our community and region. Every resident can help to preserve our environment and water resources. www.stormwaterpa.org

Rain Gardens

A rain garden is a shallow depressed planting area filled with absorbent soil and water-tolerant native plants. Rain gardens reduce water pollution, and provide an excellent way to landscape a low-lying area or a good place for downspouts to discharge. They provide habitat for birds and butterflies, and can be a beautiful addition to the landscape.

Sewer bill payments at counter discontinued.

REMINDER: As of July 1, 2017, the City of Hermitage is no longer accepting payments for sewer bills at the Finance Department counter. We make this change, in part, due to changes in personnel and staffing and to improve the overall efficiency of our operations and accounting controls.
