

2017 Capital Paving Project (Victoria Drive, Theresa Avenue and Patricia Avenue).

The City of Hermitage plans to pave Victoria Drive, Theresa Avenue and Patricia Avenue this spring. The work scheduled to be included in the Capital Paving Project consists of removal of existing pavement, repairs to roadway base where necessary, reconstruction of the roadway where needed and repaving of the streets. Adjustments will be made where necessary to assure that every driveway along the newly paved streets will transition properly to the new pavement.

Shields Asphalt Paving from Valencia, PA has been awarded the project. This project is scheduled to begin in early May and to be completed in June. During construction activities roadways will be open under traffic control measures.

Updates will be provided as we get closer to actual construction. Information regarding this project can be found on the City website at www.hermitage.net or you may contact Donald Kizak, City of Hermitage Engineering Manager at dkizak@hermitage.net or 724-981-0800.
