March 2019

Dear Members, Local Businesses, Friends & Professionals:

As 2019 continues to move forward, the Hermitage Historical Society wishes to present the 150<sup>th</sup> anniversary of the occupation of the Stewart House. The house has been the current home of the Hermitage Historical Society since its inception in 1997. The original occupants, Robert and Mary Ann Hoagland Stewart built the home at Locust Grove in 1868-69.

The Hermitage Historical Society's Mission is to preserve the history of Hermitage for future generations along with the preservation of this 150 year-old house, making it one of the oldest houses in the City and one of the most impressive. Many visitors who have toured the Stewart House refer to it as a best kept secret in the City of Hermitage.

As we look forward to 2019 and the ongoing preservation of the Stewart House we are requesting that members, friends and the public support our project of replacing windows in the house. For your support and a contribution of \$500, a window can be replaced in memory or honoring of an individual or family. This contribution would help toward the cost of the replacement. Please refer to the attached form with the information necessary to fulfil this request.

Please refer your questions about this request to any of the Hermitage Historical Society's Board Members. C-724 877 7996

Yours very truly,

HERMITAGE HISTORICAL SOCIETY  
Board of Directors
